HOT AIR

Local Club Shoots Some at an Efficient Member.

Yesterday was the anniversary of harrier, Charles H. Burkholder's birthday, and his hot air balloon took advantage of the occasion to remind him that he has a warm spot in their affections, and that they value his services, and that they value his services, and that they value his services.

Dr. Charles T. Baylis, who will lecture on "Through Densities" at the Grand Opera House, Monday night, Saturday, May 1st.

Mr. H. H. Howitt will give his fifty-third and closing organ recital for the season on Saturday afternoon, May 1st, assisted by Frank Blaisdell, violinist, of Toronto.

The Big Sensation came to the Savoy next week. Wherever this company has appeared, it has been met with great approval. Fun, frolic, fantastic features, new novelties, original catch music, and a grand chorus of girls, bewitching, sweet, and melodious, are a few of the elements presented by this company.

"A POOL, THERE WAS." Porter Emerson Brown's powerful play, "A Pool There Was," which was probably the most brilliant and successful vehicle in which Robert Hilliard has appeared, will be the offering this coming week at the Temple, and should prove one of the most popular attractions in the repertoire of the Niagara-Kemble Players.

YOUNG MEN'S CONCERT. The Young Men's Association have arranged an evening programme for tonight, "Carnegie Home at the Night." The programme is a patriotic sketch, which will be produced for the first time in the history of the Young Men's Association.

ALLIES DRIVE AHEAD AT THE DARDANELLES

Hold a Line Right Across the Gallipoli Peninsula.

Great Turk Stronghold Isolated and Must Soon Fall.

London, April 28.—The allies have made rapid progress in their land and sea attack upon the Dardanelles. Already the British troops have thrown a line across the southern extremity of the Gallipoli Peninsula from the straits coast to a point north of the Kilit Bazar, a strongly fortified position facing the straits, thus isolating the Turkish stronghold at Kilit Bazar at the very tip of the Dardanelles.

This has been done, says the Admiralty, to-day, the day of the Dardanelles campaign, which has been the last of ground war with Turkish resistance.

Further north on the Asian side of the peninsula, at Gaba Tepeh, and at the village of Sari Bair, additional landing forces have made good their foothold on Turkish soil, and have driven the opposing forces back from the coast of the Dardanelles.

The British Army of invasion holding Kilit Bazar at the southern end of the peninsula, and the British forces landed on a level shore three miles from the entrance to the straits. Kilit Bazar is some three miles from the entrance to the straits.

ALLIES STAGNATED IN BELGIUM

And German Assaults Around Ypres Are Now Definitely Stopped.

ONLY ONE SPOT

Stenestraat, Now Held by Enemy On West Bank of Yser.

Paris, April 28.—The French War Office reports relative calm along the battle front in Belgium and the operations of the allies have definitely stopped the German attacks, which has not been renewed. Counter-attacks apparently are still being defeated by both French and British, but there are of minor importance as compared with the German attacks, which have been stopped.

Only at one place, Stenestraat, have the Germans managed to keep their footing on the western bank of the Yser, while to the east of Ypres the positions remain much as they were.

To hold these lines the Germans have brought up further reinforcements, and Belgium believed that the towns and villages in Belgium are being demoralized of troops.

Stenestraat, now held by the enemy, is a small village on the Yser, where both sides claim to be in possession of Hartmanns-Werkspoor.

It is probable that this position, which commands the plains of Alsace, will be changed in the near future; this would account for the contradictory reports.

YIPPS STRIKE STATEMENT.

"Fighting to the north and northeast of Ypres continued all yesterday, April 28, in the region of the Yser, the French definitely stopped the German attack, and it has not since been renewed."

"Since yesterday morning, there has been no German advance on the main front, at Stenestraat, where the French have established a small bridgehead."

"The readjustment of the situation has necessitated the delivery of counter-attacks by the French and our troops on the north of the Ypres front, in the region of the Yser, where the German assault made use of gas, and the French have been successful in repelling the attack."

GAS CAUSED DEATHS

Medical Expert Examines Casualties Slain by German Fumes.

Many Killed by the Barbarians' Brutality.

London, April 28.—Dr. John S. Haldane, who was sent to France to observe the effect of the gases used by the Germans in the Ypres region, reports that he examined several Canadians who had been incapacitated by the gases.

"One of the men I saw was lying struggling for breath and blue in the face. On examining their blood with a spectroscope and by other means I ascertained that the blueness was not due to the presence of any iron pigment. There was nothing to account for the blueness and the man died within a few minutes. It was that they were suffering from acute bronchitis and its secondary effects. Their statements were to the effect that when in the trenches they were overcome by an irritant gas produced in front of the trenches and carried towards them by a gentle breeze."

"One of the men died shortly after our arrival. A post-mortem examination showed that the man had died of acute bronchitis and its secondary effects. There was no doubt that the bronchitis was due to irritant gas. Asphyxiation was due to irritant gas."

Corp. W. H. Porter Writes From Canadian Barracks at Bermuda.

Because they are not at the battle front little is heard of the Canadians of the first contingent who were sent to Bermuda. One of their number, Corp. W. H. Porter, whose picture was in yesterday's Times, writes from Prospect Barracks, in an interesting way.

Prospect Barracks. Bermuda, April 15.—Dear Father and Mother—Just a few lines to let you know that I am in the best of health and hope and trust that this will find you all the same. I received the paper and thank you for them. We are to send me some more. Well, we have told me in last letter that you were doing guard duty at the high level bridge. How do you like it? I guess you have found it pretty odd some times. I am also pleased to hear that brother Frank is doing guard duty
